Scope out the awe-inspiring falls and cozy lodge at Cumberland Falls State Park in Corbin, Ky.

Over the Moon

CUMBERLAND FALLS
STATE RESORT PARK
CORBIN, KENTUCKY

..... 14

Referred to as the “Niagara of the South,” Cumberland Falls is one of the most beautiful locations in the South and one of the only places in the world where a “moonbow” can be viewed at certain times of the year when the moon is full. A moonbow, a rainbow caused by the moon, is produced by light reflecting off the moon and refracting off moisture in the air. It’s an amazing sight.

In 1927, Kentucky native T. Coleman DuPont bought the falls and the surrounding land and gave it to the commonwealth of Kentucky for a state park. In 1931, Cumberland Falls State Resort Park was officially made a part of the state parks system and a lodge, cabins, campsites, picnic areas, roads and trails were all completed. With several lodging choices, from the recently renovated lodge to rustic camping spots, families can find the perfect accommodations at the park.

The lodge includes comfortable rooms with televisions, Wi-Fi and easy access to the Riverview Restaurant, which boasts an excellent view of the Cumberland River and serves up Kentucky specialties such as Derby Pie. All types of seasonal activities take place at the park, including fishing, hiking, horseback riding, bird watching, swimming, rafting and tennis. A new activity is flume mining at the new Cumberland Falls Mining Company, where kids can purchase a bag of rocks, rinse with water in the flume and just possibly find a special gemstone. In addition, family-friendly events are offered throughout the year.
